### **Use of 340B Contract Pharmacy**

Contract pharmacies offer a range of customizable clinical and operational services that enhance the safety, quality, and affordability of care for our patients. Our 340B network of pharmacies was chosen based on a wide variety of performance and cost-saving criteria. We review each pharmacy that we add to our network to determine their true capabilities and services before entrusting our patients to their care. Using our 340B program helps to provide funds for increased client services such as a case manager and in-house lab and mental health and help us provide care for uninsured patients.
